Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want to grow the right crop for my land. • I need simple farming advice. • I cannot afford agricultural experts.	THINKS • Which crop will give me the highest yield? • What if I choose the wrong crop and lose money? • I hope technology can help me make better decisions.
DOES • Checks soil and weather cond before planting. • Uses traditional farming meth and seeks advice from others. • Uses a smartphone to search f farming information.	FEELS • Worried about crop failure. • Confused by changing weather conditions. • Hopeful that AI recommendations will improve productivity and income.tions.

**PERSONA
NAME**
Small-Scale Farmer

Empathy Map – Small-Scale Farmer Persona

The empathy map helps understand the needs, thoughts, actions, and emotions of a small-scale farmer. It highlights the challenges farmers face in selecting suitable crops and shows how the OptiCrop system provides simple, AI-powered recommendations to improve crop yield, reduce risk, and support informed farming decisions.
