

## Project Executable Files

|                      |                                                              |
|----------------------|--------------------------------------------------------------|
| <b>Date</b>          | 01 July 2026                                                 |
| <b>Team ID</b>       | XXXXXX                                                       |
| <b>Project Name</b>  | OptiCrop – Smart Agricultural Production Optimization Engine |
| <b>Maximum Marks</b> | 3 Marks                                                      |

### Project Executable Files

This section provides the executable files, source code, and supporting resources required to run the OptiCrop application. The project is organized into modular directories containing the machine learning model, data preprocessing scripts, Flask web application, testing files, and documentation. All required dependencies and execution instructions are included to enable successful project setup and execution.

### Step 1: Submission Checklist

| S.No | Item to Submit                                                  | Submitted (Yes / No / NA) |
|------|-----------------------------------------------------------------|---------------------------|
| 1    | Complete source code (all files and folders)                    | Yes                       |
| 2    | README / Setup Guide (instructions to run the project)          | Yes                       |
| 3    | requirements.txt / package.json / dependency file               | Yes                       |
| 4    | Database schema / seed files (if applicable)                    | Yes                       |
| 5    | Environment configuration file (.env.example or similar)        | No                        |
| 6    | Deployed application URL (if hosted)                            | Yes                       |
| 7    | APK / Executable binary (if applicable for mobile/desktop apps) | NA                        |
| 8    | Dockerfile / Containerization config (if applicable)            | No                        |
| 9    | Test files and test results                                     | Yes                       |

|    |                                         |     |
|----|-----------------------------------------|-----|
| 10 | Demo video or walkthrough (if required) | Yes |
|----|-----------------------------------------|-----|

## Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

[Paste or describe your folder structure here. Example:]

  

```

/project-root
/src    - Source code files
/tests  - Test files
/docs   - Documentation
/config - Configuration files
README.md - Setup and run instructions
requirements.txt - Python dependencies (or package.json for Node)
    
```

## Step 3: Deployment / Access Details

| Field                       | Details                                                   |
|-----------------------------|-----------------------------------------------------------|
| Hosted / Deployed URL       |                                                           |
| Login Credentials (Demo)    | [Provide demo username and password for evaluator access] |
| Platform / Hosting Provider | [e.g., Render, Vercel, AWS, Heroku, Azure]                |
| Repository Link             |                                                           |
| Demo Video Link             |                                                           |

## Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

### Pre-requisites:

[List required software, versions, and system requirements]

Step 1: [e.g., Clone the repository: `git clone <url>`]

Step 2: [e.g., Install dependencies: `pip install -r requirements.txt`] Step

3: [e.g., Configure environment: copy `.env.example` to `.env`] Step 4:

[e.g., Run database migrations: `python manage.py migrate`] Step 5:

[e.g., Start the application: `python manage.py runserver`] Step 6:

[e.g., Open browser at `http://localhost:8000`]

## Step 5: Known Issues / Limitations

| S.No | Known Issue / Limitation | Workaround / Status |
|------|--------------------------|---------------------|
| 1    |                          |                     |
| 2    |                          |                     |
| 3    |                          |                     |
